

## Color Key

Original ARRO's Favorite Resources List

Updated information

New Sources I added

Consider removing - it's outdated

## Thoughts

1. The list must be re-ordered so that important clinical decision making learning materials are at the top
2. Since there are so many types of materials, may have to split into pages, grouped by themes
3. Should the resources I added should be directly endorsed by ASTRO / ARRO?
  - a. We used to endorse 1 doc's book. Now I'm adding websites / documents created by 1-4 docs. Probably okay?
  - b. Paid services?
  - c. AI Generated materials?
4. Some resource lists can be turned into linktrees. Otherwise listing them all gets in the weeds, too many links for a poster or an email.
  - a. ie "Want to see all the contouring atlases? Scan this QR code / click this link"
5. Some sections are superfluous to learning but are important and deserve a separate page on the website: ie Journal Websites, Organizations
6. Some resources deserve new sections: Mobile apps, Newsletters, Leadership positions in prof societies, sources of grants/fellowships to know about
7. ASTRO/ARRO has other lists of resources that somewhat overlap and have other info not in this list. I linked those lists instead of copying those resources over in case someone else is maintaining those lists.
8. The textbooks list is too long. Should trim down to a few useful ones
9. Not sure where to place the MISC resources. The ASTRO professional development page may just not need to be referenced here since it's for research and it already exists as a standalone page... Zoarsky - not sure since it fits into too many categories.

## 1. Clinical Decision Making Learning Resources

---

Suggested structure:

1. Early Residency (Orientation, on-call, and foundational tools)

- ROECSG Introduction to Radiation Oncology
- ROECSG IROC
- ACRO Deck
- ARRO On-Call Handbook (ROCK)
- Basic anatomy resources (eAnatomy, Neuroanatomy website, Gray's Anatomy)

2. Building Clinical Competence (Daily decision-making, contouring, and case-based learning)

- Treatment Guidelines (NCCN, ACR Appropriateness Criteria, ASTRO Early Career Reference)
- Contouring & Planning (eContour, RTOG Contouring Atlases, EduCase, ARC Bootcamp, RadOncReview Constraints, QUANTEC)
- Proton Planning Videos
- Case Vignettes (ARROCase, theMednet, Chartrounds, At the Beam Podcast)
- Online Reference Texts (Estes Tables, Rad Onc Wiki, RadOncReview, HemOnc.org)
- Useful Apps (RadOncCalc)

3. Boards Preparation

- Oral Boards resources (Tips and Tricks video, Estes Oral Boards Tables, RadOnc Smart Learn, ASTRO Early Career Reference)
- High-yield lectures & study guides (Rad Onc Talks, Timoteo Almeida Medical Education Library)
- Practice questions (RadOnc Questions, Radiation Oncology: A Question-Based Review / Green Book)
- Physics (ARRO Physics list, Primer on Radiation Physics Lectures, Khan book)

- Radiobiology (ARRO Radiobiology list, RadBioForRadOnc YouTube, Hall book, ARRO Board Certification page)
- Statistics (Biostatistics and Evidence Appraisal for Radiation Oncologists)

#### 4. Continuous Learning & Advanced Practice

- Podcasts (QuadShot News, RadOnc Smart Review, Two Onc Docs, The Fellow On Call, Red Journal Podcast, PRO Podcast)
- Webinars (ASTRO/ARRO Journal Club, ARRO Webinars, ROVER, ACRO Resident Webinars)
- Newsletters (ARROgram, QuadShot News)
- Core textbooks and selected study guides (keep only the highest-yield ones; link out for the full list)

#### 5. Transition to Independent Practice and Career Development

- Zaorsky Educational Threads
- Leadership positions & professional society memberships
- Sources of grants/fellowships
- ASTRO Professional Development resources

#### 6. Quick-reference links (separate page or Linktree)

- Organization websites
- Journal websites
- Toxicity Scales (RTOG, CTCAE)
